By personal transport:

Option 1: by Volokolamskoye highway – take the highway (direction - away from Moscow) till the right turn to "Zeleniy Kurgan", take the turn, after that drive for about 5-7 minutes, after that take the right turn under the road sign showing secondary road crossing the main road. After that keep driving straight ahead (around 2 minutes) till you see the dark-red gates. The advertising boards with "Pitomnik" written on them will help you to identify the place.

Option 2: by Novorizhskoye highway – 40 km from Moscow Ring Road (MKAD), right turn to Istra, after that in 1 km enter the round about and take the 2 exit (i.e. basically keep going straight ahead). Within 3 km there is a road sign showing "Istra – to the right – 7km, Volokolamskoye highway – straight ahead – 4 km" – keep moving straight ahead (don't turn). After 4 km there will be a T-shaped crossroad – turn right (towards Moscow). Within 1 km there will be road sign showing "p. Oktyabrskiy – to the left – 1.1 km" – take the left turn. Afterwards you can navigate by advertising boards "Pitomnik".
